uptown.

Chris can meet next week for lunch or dinner if you guys are around then. If you prefer to meet us both at once, then next week. Let me know what your preference is.

Sorry today is getting away from me. There's a lot of market activity and our software is trading. Let's get something in stone next week when Chris and all you guys can meet. We will have the update call tomorrow and be sharing reports from auditors soon, so perhaps better to talk through that than I'm the abstract anyways.

[Auto-Reply] I'm driving right now - I'll get back to you later.
